TIMELESS ARCHITECTURAL MASTERPIECE

OAHU ~ KOKO KAI/
 PORTLOCK

In this day and age, finding a sanctuary is rare enough, rarer still is a sanctuary you can call your own. Rising 90 feet above the ocean and the famed Spitting Cave, on the slopes of Koko Head, this three level residence offers sweeping views to the horizon and beyond.

Sightings of humpback whales, Hawaiian monk seals, dolphins, and Hawaiian green sea turtles are a common occurrence. The Honolulu Advertiser ranks this location among the best on the island for whale watching.
